PROFILE

Business Information Systems graduate (Cairo University, 2024) and web developer with hands-on experience building full-stack applications with ASP.NET Core, SQL Server, Node.js, Angular and MongoDB. Built an e-commerce platform with an admin dashboard and an HR & Attendance Management System with REST APIs, working directly with clients on requirements. Quick to pick up new tools and stacks, comfortable with Git workflows and code reviews, and a regular user of AI tools (Ollama) to build and ship faster.

SKILLS

Front-End: HTML5, CSS3, JavaScript (ES6+), TypeScript, Angular

Back-End: ASP.NET Core, C#, Entity Framework Core, Node.js, RESTful APIs, JSON

Databases: SQL Server, T-SQL, MongoDB, relational data modelling

Tools & Workflow: Git & GitHub, code review, Jira, Agile/Scrum, technical documentation

AI Tools: Ollama (running and using local LLMs for development support)

Also: NetSuite SuiteScript 2.1 (Client, User Event, Scheduled, Map/Reduce, Suitelet)

EXPERIENCE

2023 **Backend Developer — Youth Scope**

- Built a full-stack e-commerce platform (Node.js, Angular, MongoDB) with an Admin Dashboard to manage products, orders and users.
- Exposed and consumed backend APIs; coordinated with technical and non-technical team members on requirements and deliverables.
- Took part in code reviews and followed Git-based development standards.

2023 – Present **Web & Backend Developer — HR & Attendance System (Independent / Team)**

- Designed and built an HR & Attendance Management System with ASP.NET Core and SQL Server: attendance tracking, annual leave calculation and employee reporting.
- Built the REST API layer connecting backend logic to the frontend, with data access through Entity Framework Core.
- Developed an ATS module that filters and ranks CVs against job requirements.
- Gathered requirements directly from the client, agreed priorities, and kept documentation (process flows, user guides, reporting templates) up to date.

Jul 2026 – Present **NetSuite SuiteScript Developer — Ofok United (Remote Training)**

- Write Client and User Event scripts in JavaScript to enforce business validation, with structured error handling and audit logging.
- Built a Point-of-Sale solution with discount logic, real-time inventory updates and automated daily sales reports.

Jun 2023 – Sep 2023 **IT Intern — El Sawi Group**

- Documented and maintained internal IT processes; prepared reports on system performance and issue resolution.

EDUCATION

Bachelor of Business Information Systems (BIS) — HICMIS, Cairo University, 2024

TRAINING & CERTIFICATIONS

- MEAN Stack Development — NTI (National Telecommunication Institute), 2026
- ASP.NET Full Stack Development — IT Share
